

## DRIVE LINE

### Sport High Volume IRS

DESIGNED  
FOR  
Holden IRS

#### Differential Cover and Mounting Assembly

#### Features (Sport):

- Significantly reduces axle tramp in nearly all applications
- Increases oil capacity by approximately 1.5 litres, resulting in improved cooling and durability
- Utilises standard wheel speed/ABS sensors
- An affordable safe guard for circuit, rally or drag racing applications
- The Harrop Sport diff cover is cast and manufactured in house from high grade, heat treated aluminium, and CNC machined to exacting tolerances with total precision
- Designed to suit Holden IRS Commodore, Monaro, GTO vehicles including LWB
- Can be machined to suit the use of external oil cooler and pump systems
- Improves rear end rigidity for towing and heavy duty load applications
- Heavy duty powdercoated mounting bracket
- Urethane high performance bushes
